Projects

Pass OP

Website

A full-stack password manager built with React on the frontend and Node.js on the backend. Features include authentication using JWT, password hashing using bcrypt, and MongoDB for storage.

Bitlink

GitHub

A URL shortener project that turns long links into short, user-friendly URLs and stores the original URLs in a database. Built using Next.js.

Saathi (Working)

GitHub

A SaaS-based platform for renting farm equipment to small farmers. It is designed to help streamline equipment sharing and access.
